## JUNMAI DAIGINJO

Naginata is an extremely limited production Junmai Daiginjo saké brewed by brewmaster Takumi Kuwabara in SakéOne's Forest Grove kura (brewery) utilizing the abundant, soft water of Oregon's beautiful coastal range. A saké specific rice called Yamada Nishiki, grown by a single grower in Arkansas, was chosen for this project.

Bright, fruity aromas of blueberry, banana, and grape with a touch of orange blossom, balanced by a subtle dryness and flavors of Fuji apple, melon and guava. With the spices of pepper and hints of liquorice layered in the backdrop leading to a smooth and lingering finish, this is a Junmai Daiginjo that is elegant and complex.

# Momokawa

It's an idea.

An attitude.

A belief that there is something more just waiting to be discovered. It drove our micro-brew and winery friends to change laws and start a revolution in craft beverage that has become a hallmark for Oregon. It's what drove Momokawa to become America's premier craft saké brand, brewed with that revolutionary passion to create the greatest possible expression of what we love.

# g Saké

Premium and American craft. Where the ideas and flavors of the past meet a dynamic present, in g we created something wonderful that brings joy to the purist and new American consumer. The “g” stands for Genshu (undiluted), meaning this style of powerful yet elegant saké is full cask strength with no additional water, retaining the rich depth of flavor. Although brewed in a customary Japanese style, using traditional equipment, g saké is complex yet smooth and harmoniously melds Japanese and American cultures and tastes.

# Yomi

According to Shinto mythology, Yomi means “World of Darkness” or “an Afterlife” where one goes after death. This story inspired us to craft a saké meant to be consumed each day as the sun sets, when we seek refuge from our daily responsibilities and burdens and revel unchained and uninhibited. Introduced in early 2019 as the first canned saké in America, this premium level saké is innovative, bright, refreshing and hedonistic and will complement almost any food or occasion. # Kasumi Tsuru

Founded in 1725, Kasumi Tsuru is one of the rarest breweries in Japan, only brewing in Kimoto and Yamahai methods. Master Brewer Matsumoto embraces these meticulous and laborious methods of brewing, creating lactic acid 100% naturally by hand, a process that takes more than twice the time but locks in much more depth and rich umami flavors. This produces a complexity that no modern technology can match, creating a line of distinctive, premium saké. To Kasumi Tsuru, being the local pride of the Tajima region is very important. The company creed is “Tajima no Hokori tare” (Do Tajima proud), and their policy is “quality first, community first, and cordiality first.”

## Yuki Tora (Snow Tiger)

When crafting our nigori saké, our Toji's goal was to create a saké possessing both elegance and power. Our inspiration was the softness and beauty of Yuki (the snow) and the power and strength of Tora (the tiger). The result was exactly as desired - a beautiful, elegant and softly sweet saké with the potential to stand up to strong, flavorful, spicy foods.

# Murai Family

Murai Family's passion is shown in nearly 200 years handcrafting some of the finest saké in Aomori Prefecture under the name Momokawa Brewing Japan.

In the U.S. their saké is presented under the Murai Family name and each bottle is recognized by the Nebuta Warrior image, widely known from the famous Aomori Summer festival.

# Suisen

Suisen Shuzo is in the Southern region of the Iwate Prefecture. It was established in 1944, when eight saké brewers merged; the oldest established over 200 years ago. The name Suisen comes from the Japanese words “drunken” and “enchanted land”, which was inspired by the famous painter Sato Kagakusai, who said his soul was enhanced to an enchanted land with the taste of Suisen saké. In 2011 a devastating Tsunami destroyed the original Suisen kura/brewery. Soon after the kura was rebuilt, SakéOne and Suisen created Kibo saké for the U.S. market as a symbol of the resilience to begin anew. Appropriately named, in Japanese, Kibo means “hope.”

# Tombo {Shochu}

## LET YOUR INNER DRAGON FLY

Ages ago, Japan was called Akitsushima, “Land of Dragonflies” and Samurai armor was often adorned with dragonflies to symbolize strength. It is from this history and lore that Tombo rises. An authentic Honkaku Shochu, Tombo is single pot distilled from North American barley and white koji. Drawn from the head and body of the distillation process and aged six months in stainless steel tanks, Tombo retains full flavor yet is mellow and easy to sip. Despite similarities, Tombo Shochu is not vodka and you may find it more refined than its Korean relative known as soju. Tombo Shochu is best enjoyed slightly chilled and served neat, on the rocks, or mixed in a cocktail.

**RASPBERRY LEMON DROP**

Put 3 ounces Tombo Shochu in a cocktail shaker with ice, add 6 raspberries, 2 teaspoons simple syrup, and juice from 1/2 lemon; shake and strain.

**This versatile skinny alternative to vodka makes a 100-calorie cocktail!**

**TOMBO**  
**Shochu** - Spirit distilled from barley

Lush grain aroma followed by hints of pear and citrus flavors accented by tropical spice. The finish is clean and long with notes of spice, steel and green olive.

**Proof 48% ABV 24%**

With an uncompromised spirit to produce the highest quality saké possible, SakéOne soon became America's first successful craft saké producer.
