

Moonstone Has a New Look

SakéOne is excited to announce an elevated new look to the Moonstone family lineup. Inspired by the natural wonderland of our home in the Pacific Northwest, our new labels are as visually enchanting as each Moonstone flavor is on the palate. While the bottles may have a new look, we remain dedicated to the quality and approachability that Moonstone provides, combining crisp fruit flavors with pure, premium junmai ginjo. Bottle sizes and UPCs remain the same.
